THE CHICAGO GRAIN MARKET

Free Offerings From Bears Cause a

Reaction in Corn.

CHICAGO, Sept. 6.—Wheat was duller than ever today. Outside of a little ac-

tivity and strength at the opening in sym-

pathy with corn, the market was inclined

to be heavy, more from lack of trade than

anything else. It finally sagged off %c, closing rather weak. Paris 1/2c higher,

and Antwerp %c higher. Primary receipts were over last year's; clearances, 624,000 busheis for the day, and 4,400,000 for the

were over last year's; clearances, 624,00 bushels for the day, and 4,00,00 for the week.

Corn was fairly strong early on the firm Liverpool cables, Argentine shipments, and the fear of frost on account of the low temperatures in the Northwest. The local bull crowd were the principal buyers, but the market met rather free offerings of May from commission houses and bear traders, which brought about a moderate reaction. For the rest of the session it was very dull, with occasional railies on buying by local professionals. Offerings, however, were too large to permit of an advance. Cash sales were 100,000 bushels. Exports for the week were very light, 559,000 bushels.

There was a fair business in oats. Shorts were the principal buyers during the early part of the session. There was not much disposition to support prices by the buils. The closing was heavy, with the local talent generally bullish. The cash demand was not so urgent. Car lots, las with 170 estimated.

Provisions opened higher, influenced by the strength in the hog market, best grades selling at 57. Lard again led the market. There was free covering by September and October shorts early, which was met by heavy realizing sales. There was fair trade in pork and ribs, and the close was firm at the advance.

#### LITTLE ACTIVITY EVIDENT

The Market Dull and Almost Without Feature.

Speculative Attention Shifts From the Railway List to Other Quar. ters-Signs of an Over-Extended Short Account Shown at the Close.

NEW YORK, Sept. 6.-Today's stock market was extremely dull and the dealings resulted in few movements of any importance. The main influences in trading were still the steel strike and the conditions prevailing in the money market. Money on call today ruled between 4 and per cent for the bulk of the new borrowing. The preliminary estimates of the money movements of the week indicate a oss to the associated banks of over \$i,-

It is impossible to forecast the changes

dealings. Irregular price changes were furnished from that quarter and the deal-ings here for foreign account were of in-consequential volume. It is probable that the present critical condition of affairs in the steel strike situation had a good deal to do with restricting an active trad-

deal to do with restricting an active trading.

Such activity as appeared in today's
market shifted from the railway list into
other directions. Brooklyn Rapid Transit
was the feature of the early dealings in
a further decline, which was presumably
owing to rumors published this morning
that the company is meditating a large
issue of bonds. No confirmation of the
report was obtainable, and with the
course of the day the stock recovered the
whole of its carly decline. There were
active dealings also in People's Gas and
Amalgamated Copper, both of which were
rather heavy.

Amalgamated Copper, both of which were rather heavy.

Sugar Refining was firm on the announcement of an advance in the selling prices of some grades of the reduced article. The fluctuations in the United States Steel issues were extremely limited, and the trading in them was haturally curtailed by the uncertainty as to the result of today's efforts to bring the strike to a close.

the result of today's efforts to bring the strike to a close. The railway list was generally steady, with the dealing, however, in extremely light volume. Firm features were Erle common, Pennsylvania, and Union Pacific. St. Paul was also somewhat firmer, notwithstanding the epinion that no change would be made in the rate of dividend next week. Some of the usually inactive railway stocks were well supported, conspicuous examples being Evansville and Terre Haute and Chicago, Indianapolis and Louisville, the dealings thereth being attended by reports that a connection between the two properties was contemplated.

The effect of the grievous event at Buffalo yesterday on the stock market was one of the chief topics in the hotel lebbigs last night. It was realized, of course, that much would depend on the condition of the Fresident this morning, and that if the news is gloomy a land break in prices at first is almost inevitable. However, conservative market people generally expressed the belief that the larger interests will support the market vigorously.

The chief characteristic of the stock market yesterday was its dullness. From the opening to the close of the session there was no time in which it could be the opening to the close of the session there was no time in which it could be said that the market was active, and for minutes together the business of the exchange ceased entirely. It is probable that the aggregate of transactions for the day was the smallest, or one of the smallest, of the year. No particular significance should be attached to this quiet at this season of the year, but, if anything, it should be considered favorable to an ultimately better range of prices. It is very evident that the hedders of securities have not cared to sell, or the surface poor news of the past two or three weeks would have been ample incentive to them. The money outlook has not been rosy, and the gossip regarding it has been even worse than the real situation. The strike has hung on much longer than was expected. The bears bave been insistent in their talk of the panic that was to come on account of the short corn crop. On the other hand, it is not strange that the possible purchasers of stocks have not begun operations. The public does not buy until a boom is well on its way, and may be eliminated from the situation in a dull market. The insiders guite reasonably may be expected to hold aloof at this season because of the possible tightness in money which might make a buil movement abortive

do not wish to sell and there is ample reason why if people wish to put up prices they should wait a little. The actual business conditions, on the other hand, are for the most part excellent, despite the talk of the bears. Hallway carnings continue superb beyond the expectation of even the most optimistic. Dividends are increasing. General trade is heavy and profitable. Prices of all classes of goods are higher than at any time before in the past decade. The exports of the country continue on an chormous scale. The strike, white it is dragging, is already almost as good as dead, as far as it affects the prespective of the Steel Trust. The outlook in all these directions is that conditions will continue good and even improve. More than these matters, for a time at least, is the fact that the insiders have the stocks and that they wish to sell them, and cannot do so without advancing prices. It is not correct to say, of course, that the big inside people cale control prices for any length of time, contrary to the trend of husiness conditions. But it is extirely within the truth to say that they can influence prices very much as they like for a time, and when conditions do not charge rapidly and radically. For these reasons the outlook for the market is considered excellent by many, even though for the present it may continue duil and professional.
the state of

It is impossible to forecast the changer in the lean account, but icasmuch as lenders have supplied the greater part of Wail Street's requirements this week it is believed that the loan account will show a material increase. To a great extent the uncashees respecting the monetary situation was mitigated by the announcement that \$500,000 in gold had been purchased in London, presumably for shipment to this country, although the destination of the metal was not definitely stated A further shipment of £500,000 in gold rom Australia to San Francisco was also announced.

The market opened with a very uncertain tone and showed a good deal of pressure in various directions, but there was a fairly general raily on the announcement of the engagement of gold in London for shipment. London was otherwise not a factor of any weight in the local dealings. Irregular price changes were furnished from that quarter and the dealings here for foreign account were of inconsequential volume. It is probable that the present critical condition of affairs in the steel strike situation had a good deal to do with restricting an active tradition.

The break in may continue duil and professionals.

The trend of prices, what there was of it, was toward a higher level and at the close fractional antegains had been made. The leaders in point of activity and of strength were the grangers, in Gold strength were the grangers, in Gold of strength were the grangers, in Gold of the specialities were weak. Colorado Fuel and iron, especially showing a bad been made, and it was toward a higher level and at the close fractional net gains had been made. The leaders in point of activity and of strength were the grangers, in Gold of strength were the grangers, in Gold of strength were the grangers, in Gold of strength were the grangers. The headers in point of activity and of strength were the grangers, in Gold of strength were the grangers, in Gold of the special propers. The news despend to be inside buying. One or two five and interest in point of acti

experts may be wrong. The loan account is entirely in doubt.

The break in Brooklyn Rapid Transit which caused the weakness in the Thursday market was not in evidence yesterday after the first hour. The stock went down to 70 and a fraction at one time and then recevered to above 71. The beartalk regarding the stock is widespread. It is said that Treasury bonds to the extent of \$3,000,000 are to be issued and that the earnings of the company for the year which ended with June were not up to expectations. These are the only matters that possers any novelty in the gessip. The old suggestion that no dividend can be expected this year is made again and the old story that the company is paying out heavy sums in settlement of damage suits is repeated; also the talk of the time when the company will be forced to change its motive power, at an expense of several million dollars. The friends of the company are not idle either. It is said that the bond issue, if it is to be made, will be for the purpose of providing money for extensions. As for the earnings of the company during the past four months has been very heavy and by far the largest in the history of the company. The stock is not a favorite with conservative people.

The grangers continue to show a

would be made in the rate of dividend next week. Some of the usually inactive raflway stocks were well supported, conspicuous examples being Evanswille and Terre Haute and Chicago, Indianapolis and Louisville, the dealings therein being attended by reports that a connection between the two properties was contemplated.

The market developed a little animation with the course of the day and the trading disclosed some evidences of an overextended short discount.

One of the stories yesterday was that for September at the opening, sales being the Morgan people will probably buy or made at 74c, 73%c, and 72%c. October sale One of the stories yesterday was that the Morgan people will probably buy or lease the Evansville and Terre Haute for the Chicago, Indianapolis, and Louisville. The two lines are not connected, but only twenty-eight miles of line would have to be built to join them, and without building the purchase of the Southern Indiana, which could be accomplished at a small cost, would serve the same purpose. It is sthought that Mr. Morgan may be considering the advantage that such a line would give him in his dealings on behalf of the Southern Railway, with the Louisville and Nashville. The Evansville and Terre Haute and the Chicago and Eastern Illinois are the only connections that the Louisville and Nashville has to Chicago.

The Could accurilles generally were stream of the Machanian prime yellow along the prime yellow slow in find favor, while prime yellow slow in find favor, while prime yellow slow in find favor, while prime yellow and slow to find favor, while prime yellow and slow to find favor, while prime yellow.

which could be accomplished at a small cost, would serve the same purpose. It is thought that Mr. Morgan may be considering the advantage that such a line would give him in his dealings on behalf of the Southern Railway, with the Louisville and Nashville. The Evansville and Terrer Haute and the Chicago and Eastern Illinois are the only connections that the Louisville and Nashville has to Chicago.

The Gould securities generally were strong yesterday, though nothing new was heard regarding the outlook for the group. Texas Pacific, Missouri Pacific, and Wabash all made gains. The Greater Missouri Pacific, and Wabash all made gains. The Greater Missouri Pacific, and Wabash all made gains. The Greater Missouri Pacific, and Jargely on the condition of the market. Careful market people, many of them, are buying the securities on the declines.

There was no action regarding the dividend on Chesapask; and Ohio stock at the moveting on the Grectors. The earning the Grectors. The earning the Grectors. The earning the company are excellent and the Norfolk and Western regarding the dividend on Chesapask and Ohio and the Norfolk and Western regarding the dividend and recovered a good part of the like per cent. The "rights on the care future and both are said to make a fine showing.

Sugar was inclined to advance all day, but in far from an exciting way. It sold ex-dividend and recovered a good part of the 1% per cent. The "rights on the new issue of stock may be estimated to the company in a way that is likely to be most profitable.

SUPPLEE TAKEN TO JAIL.

Held for Further Henring.

Henry W. Supplee, the self-confessed embezzler of over \$4,000 from Ffoulke &

Co., stock and bond brokers, was yester-day committed to jail in default of \$7,000

bond, to await a further hearing in the

Police Court Tuesday next, The delay was at the request of Campbell Carring-

ton, counsel for the accused. An addi-tional charge of grand larceny was lodged

against Supplee, charging him with the larceny of the \$1,000 bond of the Fort

Worth and Denver City Railroad, which

Worth and Denver City Railroad, which has a market value at the present time of \$1,200. It is intimated that trouble may result over this bond as it is already involved in litigation. Haight & Freese now refuse to surrender the bond to the police of New York, claiming that they came by it rightfully, and that if there was another claimant for it they would have to sue for it. It was in view of this development that the warrant was issued charging grand larceny, as under the present circumstances the police will be authorized to seize the bond as stolen property, and it is their purpose to do so. It is believed that Supplee will waive an examination Tuesday and be returned to jail to await the action of the grand jury.
